

**Project Development Phase
Performance Test**

Date	02 October 2026
Team ID	SWTID-2026-4912
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	10 Marks

Performance Testing:

Project team shall fill the following information in performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Laptop Request Data Rendered	Laptop request records (requester, job role, CPU, RAM, storage, GPU, budget, status) displayed correctly [Insert screenshot]
2.	Requirement Data Preprocessing	Requirements standardised and validated; duplicate and invalid entries removed [Insert screenshot]
3.	Utilization of Data Filters	Filters on job role, configuration type, request status and standard / non-standard [Insert screenshot]
4.	Flow Logic / Conditions Used	Condition: requirements match an approved standard configuration - generate procurement request; otherwise flag as non-standard and route for approval [Insert screenshot]
5.	Procurement Dashboard Design	No of Visualizations / Graphs - 4 (requests by job role, standard vs non-standard, request status, average processing time) [Insert screenshot]
6	Procurement Report Design	No of Visualizations / Graphs - 3 (monthly request summary, exception approvals, configuration usage) [Insert screenshot]
