

Ideation Phase

Define the Problem Statements

Date	1 October 2026
Team ID	SWTID-2026-4912
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	A manager who approves laptop requests for my team
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	Approve the right laptop for each team member quickly and within budget
but	Describe what problems or barriers stand in the way - what bothers them most?	Requests arrive with missing or inconsistent specifications that I have to check manually
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	There is no standard configuration list or automatic validation against approved configurations
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Frustrated and unsure that approvals are consistent

Example:

I am	I'm trying to	But	Because	Which makes me feel
an employee who needs a laptop	get a laptop that fits my role	my request takes a long time	there are no role-based standard options and review is manual	Frustrated

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A manager who approves laptop requests for my team	Approve the right laptop for each team member quickly and within budget	Requests arrive with missing or inconsistent specifications that I have to check manually	There is no standard configuration list or automatic validation against approved configurations	Frustrated and unsure that approvals are consistent
PS-2	An employee who needs a laptop for my job role	Get a laptop with the right specifications and software for my role	I don't know which configuration to ask for, and my request takes a long time to be reviewed	Requests are handled manually, without role-based standard options or automatic routing	Confused and frustrated by the delay
